

The VAC-300 is ideal for work from smaller vehicles, positioning in tight quarters, or use in high traffic areas. The VAC-300 allows utility companies and public works departments to do the work of large vacuums, with out the increased investment. Designed for valve box cleaning, the TRAV-L-VAC 300 handles solid and liquid debris safely and quickly. Available "skid mount" for operation from pick-up truck beds or compact "trailer systems" for towing to job sites.

FEATURES

- 20 H.P. Gas Engine
